8th International Live Streaming Congress: Laparoscopic Roux-en-Y Gastric Bypass (LRYGBP): More Than Just a Little Intestinal Operation

Co-Chairs: Antonio M. Lacy
Philip R. Schauer
Josep Vidal

Secretary: Ricard Corcelles

WELCOME

In this meeting, we will take a look at the Laparoscopic Roux-en-Y Gastric Bypass technique through its application in live surgery of a morbid obese, diabetic patient, with live comments highlighting tips and potential pitfalls. A panel of recognised experts will then discuss the main hot topics regarding LRYGBP.

AGENDA

November 20, 2015

2.00pm-6.00pm, GMT+1h, Live Streaming

- 2.00-3.05 pm Introduction and Metabolic Surgery Update**
Chair: Antonio M. Lacy
- 2.00-2.05 pm Welcome and Meeting Schedule**
Antonio M. Lacy
- 2.06-2.10 pm Case Presentation**
Gabriel Diaz del Gobbo
A morbid obese patient (BMI > 40 kg/m²) with type 2 diabetes treated with anti-diabetic drugs
- 2.11-2.21 pm The Hospital Clínic of Barcelona Technique for the Laparoscopic Roux-en-Y Gastric Bypass (LRYGBP)**
Ainitze Ibarzabal
Description of the main steps for the LRYGBP technique
- 2.22-2.37 pm The Rationale for Laparoscopic Roux-en-Y Gastric Bypass (LRYGBP) to Treat Type 2 Diabetes Mellitus (T2DM)**
Alexander D. Miras
Analysis of the underlying mechanisms involved in T2DM resolution after LRYGBP
- 2.38-2.48 pm High Level of Evidence Studies Comparing Metabolic Surgical Procedures**
Ricard Corcelles
Critical appraisal of the high level of evidence studies regarding efficacy of RYGBP in treatment of T2DM

PROGRAMME

AGENDA

November 20, 2015

2.00pm-6.00pm, GMT+1h, Live Streaming

- 2.49-3.05 pm Presentation of Diabetes Surgery Summit Recommendations or Guidelines: The choice of the Surgical Procedure**
Philip R. Schauer
-
- 3.05-5.00 pm Live Surgery: Laparoscopic Roux-en-Y Gastric Bypass (LRYGBP)**
Antonio M. Lacy, Salvadora Delgado, Maria Fernández-Hevia
Discussants: *Philip R. Schauer*
Josep Vidal
Ricard Corcelles
During the operation, controversial topics regarding the LRYGB technique will be discussed as well as tricks and potential pitfalls. Several points to discuss will be: patient positioning; trocar placement; gastric pouch dissection; routing of the Roux limb; closure of mesenteric defects; type of gastro-jejunal anastomosis; limb length; etc.
-
- 5.00-6.00 pm Diabetes Surgery Debate**
A live debate among recognized experts in the field of metabolic surgery and T2DM treatment on the most current "hot points".
Panel members: *Alexander D. Miras (Imperial College London, London)*
Philip R. Schauer (Cleveland Clinic, Cleveland)
Ricard Corcelles, Josep Vidal & Antonio M. Lacy (Hospital Clínic, Barcelona)
