

## EMEA Advanced In-Hospital Training: Surgeon & Anaesthesiologist Dream Team in complex Revisional Bariatric Surgery

Cari Soci

Siamo lieti di informarvi che i tre vincitori del corso Handlab di Bari:

**Massimiliano Casadei, Alberto Catamerò e Luca Giordano** avranno l'opportunità di frequentare il corso: "EMEA Advanced In-Hospital Training: Surgeon & Anaesthesiologist Dream Team in complex Revisional Bariatric Surgery" l'11 e il 12 ottobre in Belgio presso l'Ospedale AZ Sint-Jan Hospital di Bruges.

La faculty includerà il Dr. **Bruno Dillemans Bariatric Surgeon**, il **Prof. Jan Mulier Bariatric Anaesthesiologist** e la Dottoressa Sabrina Gaudesaboos Dietician.

CONGRATULAZIONI RAGAZZI E VIVA LA SICOB!

# EMEA Advanced In-Hospital Training: Surgeon & Anaesthesiologist Dream Team in complex Revisional Bariatric Surgery

**October 11-12, 2023**  
AZ Sint-Jan hospital, Bruges, Belgium

## Welcome

This advanced course will focus on revisions and conversions in bariatric and metabolic surgery, including the management of complex cases. Special attention is given to the collaboration between surgeon and anaesthesiologist as well as to the role of the dietician when discussing treatment algorithms in revisional bariatric surgery.

The bariatric team under the guidance of Dr. Bruno Dillemans leads a high-volume center, which has become an international center of excellence over the years both in conventional primary bariatric procedures as well as revisional surgery.

As part of the blended learning concept, delegates will get exclusive access to the Johnson & Johnson Institute EMEA Online Tailored Learning platform, which hosts e-modules about anaesthesia in Bariatric surgery, gastric bypass, various webinars, and a compendium of important studies in revisional surgery.

On behalf of the faculty and Ethicon, we wish you a very instructive course!

Yours sincerely,

**Dr. Imane Eddbali**

Professional Education Manager – Bariatric & Metabolic Specialty – EMEA
